**El Apéndice Estadístico Informe Económico al Gobernador y a la Asamblea Legislativa 2011** está disponible en formato escrito, a un costo de \$15.00 y en formato de CD a un costo de \$25.00. Se puede adquirir en la oficina del Sistema Integrado de Permiso (SIP) ubicada en Piso P y está abierta al público de lunes a viernes de 8:00 a.m. a 4:30 p.m. Los métodos de pagos son: efectivo, tarjeta de débito, giro postal o cheque de gerente a nombre del Secretario de Hacienda.

**The Statistical Appendix of the Economic Report to the Governor and Legislative Assembly 2011** is available in hard copy, at a cost of \$15.00 and in the format of CD-ROM at \$25.00. It can be purchased in the Integrated Permit System's office located in the promenade; is open to the public Monday to Friday from 8:00 a.m. to 4:30 p.m. The methods of payment are: cash, debit card, postal money order or Manager's Check on behalf of the Secretary of the Treasury.

## PREFACIO

La **ley 75 de 24 de junio de 1975**, según enmendada, ordena a la Junta de Planificación a preparar un **Informe Económico al Gobernador** y a la **Asamblea Legislativa**. Este documento constituye una herramienta valiosa en la toma de decisiones sobre política pública y es un instrumento de utilidad para los interesados en el desarrollo económico de Puerto Rico.

La Junta de Planificación de Puerto Rico publica anualmente el **Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa** como un adelanto de la información estadística disponible más adelante en el **Informe Económico al Gobernador**. Este **Apéndice Estadístico** contiene las cifras socioeconómicas de Puerto Rico más importantes para el año fiscal 2012 así como de años previos.

Esta publicación esta dividida en dos secciones. La primera incluye las 35 gráficas junto con las 36 tablas de información desde los años fiscales 2003 a 2012, con excepción de la tabla uno que comienza en el 2001, para un mejor entendimiento de la trayectoria histórica de las principales variables. En la segunda sección, se incluyen las 26 tasas de crecimiento.

En esta edición se realizó una revisión de datos ante la implantación del nuevo índice encadenado de Fisher que se estará utilizando en el año fiscal 2013. Más detalles acerca de la incorporación metodológica del índice encadenado de Fisher y su impacto en el cómputo de las Cuentas Nacionales se incluirán en el **Informe Económico al Gobernador 2012**.

Agradecemos a las entidades públicas y privadas que proveyeron los datos utilizados para preparar este apéndice estadístico y exhortamos a los usuarios a incorporar en su respectivo análisis económico y social de la Isla el **Informe Económico al Gobernador 2012**.

## PREFACE

Public law 75 of 24 of June of 1975 as amended, compels the Puerto Rico Planning Board to publish an **Economic Report to the Governor and the Legislative Assembly**. This document is an important decision – making tool for public policy and is an instrument of interest for the economic development of Puerto Rico.

Each year, the Puerto Rico Planning Board publishes the **Statistical Appendix of the Economic Report to the Governor and the Legislative Assembly** as an advance of the statistical information that will be available in the **Economic Report to the Governor**. This **Statistical Appendix** contains Puerto Rico's most important socioeconomic figures for fiscal year 2012 as well as for previous years.

This publication has two sections. The first section includes 35 graphs and 36 tables of information from fiscal years 2003 through 2012, with the exception to table number one which begins in 2001, to clearly illustrate the historic trajectory of the main variables. In the second section, we include 26 growth rate tables.

This edition has data review due the implantation of the new Fisher chained index that will be used in the fiscal year 2013. Supplementary details about Fisher chained index and the effect in the National Accounts will be presented in **Economic Report to the Governor 2012**.

We acknowledge those public agencies and private organizations, which provided the information, used in this report. We urge users to incorporate into their respective economic and social analysis the valuable insight provided by the **Economic Report to the Governor 2012**.

r- Cifras revisadas.  
p- Cifras preliminares.

- (1) Deflacionado por el índice implícito de precios para deflacionar los gastos de consumo personal.  
(2) El número de familias aquí utilizado es producto de la división de la población total entre el promedio de personas por familia. Para propósitos del censo de población, una familia consiste de un jefe de hogar y una persona o más que viven en el mismo hogar y están emparentados con el jefe del hogar por nacimiento, matrimonio o adopción.  
(3) Departamento del Trabajo y Recursos Humanos, Negociado de Estadísticas, Encuesta de Vivienda.  
(4) Se obtiene dividiendo el producto interno bruto a precios constantes entre el empleo total.  
(5) Dic. 2006=100.  
(6) Promedio de los estimados de la población al principio y al final del año fiscal. Data del Censo 2010.

Fuente: Junta de Planificación, Programa de Planificación Económica y Social, Subprograma de Análisis Económico.

r- Revised figures.  
p- Preliminary figures.

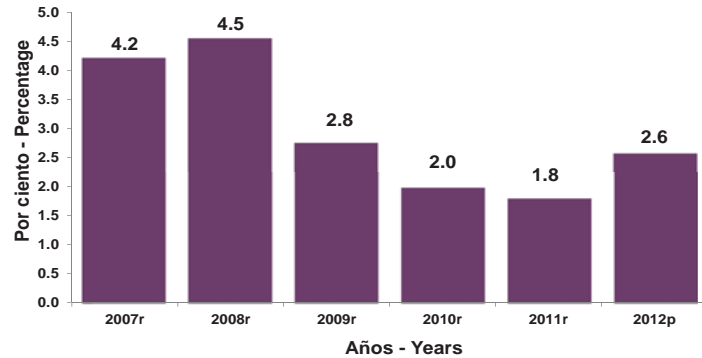

- (1) Deflated by implicit price deflators for personal consumption expenditures.  
(2) The number of families used here represents the division of the total population by the average number of persons per family. For the purpose of the population census, a family consists of a householder and one or more other persons living in the same household who are related to the householder by birth, marriage or adoption.  
(3) Department of Labor and Human Resources, Bureau of Statistics, Household Survey.  
(4) Obtained from the division of gross domestic product at constant prices by total employment.  
(5) Dec. 2006=100.  
(6) Average of population estimates at the beginning and end of the fiscal year. 2010 Census data.

r- Cifras revisadas.  
p- Cifras preliminares.

(1) Desde 1983 se incluyen los préstamos en compañías de fideicomiso con poderes de banco. Para los años desde el 1997 al 1999 los datos reflejan cambios debido a disminuciones en los balances acumulados y a reclasificaciones de préstamos personales a préstamos hipotecarios.

(2) Desde 1995 se incluyen sólo dos bancos federales de ahorro. Estos pasaron a ser bancos comerciales en 1999.

(3) No incluye todas las tarjetas de crédito.

Fuente: Comisionado de Instituciones Financieras, Asociación de Empleados del AEELA, National Credit Union Administration, Corporación para la Supervisión y Seguro de Cooperativas de Puerto Rico (COSSEC), Sistemas de Retiro de la Autoridad de Energía Eléctrica, ELA, Maestros y de la Universidad de Puerto Rico.

r- Revised figures.

p- Preliminary figures.

(1) Since 1983 the loans in trust companies with banking powers have been included. For years 1997 to 1999, there are changes in these figures due to lower accrued balances and changes in classification of personal loans to mortgage loans.

(2) Since 1995 only two federal saving banks are included. They became commercial banks in 1999.

(3) Does not include all credit cards.

# TASAS DE CRECIMIENTO

GROWTH RATES

APÉNDICE ESTADÍSTICO • STATISTICAL APPENDIX

**INTERPRETACIÓN DE LOS CUADROS DE TASAS DE CRECIMIENTO ANUAL**

Esta sección del Apéndice Estadístico del Informe Económico al Gobernador y a la Asamblea Legislativa 2012 incluye cuadros con las tasas de crecimiento para los años fiscales 1989 al 2012 correspondientes a las siguientes variables económicas:

- |  |   |
|--|---|
| 1. Producto bruto                                    | 14. Producto interno bruto per cápita   |
| 2. Producto bruto per cápita                         | 15. Ingreso personal  |
| 3. Gastos de consumo personal                        | 16. Ingreso personal per cápita   |
| 4. Gastos de consumo personal per cápita             | 17. Ingreso personal disponible   |
| 5. Gastos de consumo personal de bienes duraderos    | 18. Ingreso personal disponible per cápita                                      |
| 6. Gastos de consumo personal de bienes no duraderos | 19. Ingreso neto  |
| 7. Gastos de consumo personal de servicios           | 20. Ingreso neto per cápita   |
| 8. Gastos de consumo del gobierno                    | 21. Índices implícitos de precios para deflacionar el producto bruto            |
| 9. Inversión interna bruta de capital fijo           | 22. Índice implícito de precios para deflacionar los gastos de consumo personal |
| 10. Inversión en construcción                        | 23. Empleo  |
| 11. Inversión en construcción de vivienda privada    | 24. Desempleo   |
| 12. Inversión en maquinaria y equipo                 | 25. Población   |
| 13. Producto interno bruto                           | 26. Deuda pública bruta de Puerto Rico  |

Los cuadros para estas variables se presentan a precios corrientes y constantes en los casos donde corresponda. Cada uno de éstos contiene las tasas de crecimiento anual para dos años en específico, cualesquiera que éstos sean para la serie presentada en esta publicación. Los cuadros están divididos por una línea diagonal formando dos triángulos. Las tasas de crecimiento a precios corrientes se presentan en el triángulo inferior y las tasas de crecimiento a precios constantes en el triángulo superior. La ventaja de este ordenamiento es que permite comparar directamente, entre dos años dados, la tasa de crecimiento monetario con la tasa de crecimiento real de una determinada variable macroeconómica.

El cuadro se lee igual que el sistema de coordenadas cartesianas. Tanto en el eje de las abscisas (eje horizontal) como en el de las ordenadas (eje vertical) aparecen los años. En el punto o celda de intersección de dos años dados aparece la tasa de crecimiento para el periodo.

Si se interesa obtener la tasa de crecimiento de una variable a precios corrientes entre dos años dados, se busca primeramente en el eje vertical el año más reciente y se mueve en dirección horizontal hacia la derecha, hasta encontrar la intersección con el otro año. El valor que aparece en la celda de intersección es la tasa de crecimiento monetario durante el periodo. En cambio, si lo que se interesa es obtener la tasa de crecimiento a precios constantes de la misma variable, se busca primeramente en el eje horizontal (en el tope del cuadro) el año más reciente y se mueve en dirección vertical, hasta encontrar la intersección con el otro año. De este modo, se obtiene la tasa de crecimiento real durante el periodo. Por ejemplo, la tasa de crecimiento anual del producto bruto a precios corrientes en el periodo de 1989 al 1996 fue de 6.2 por ciento. En cambio, la tasa de crecimiento a precios constantes de esa variable en el mismo periodo fue de 2.4 por ciento. Al realizar el procedimiento conviene recordar que se debe partir del año más reciente.

APÉNDICE ESTADÍSTICO • STATISTICAL APPENDIX

**INTERPRETATION OF THE ANNUAL GROWTH RATES TABLES**

This section of the Statistical Appendix of the Economic Report to the Governor and to the Legislative Assembly 2012 includes growth rate tables for fiscal years from 1989 through 2012, corresponding to the following economic variables:

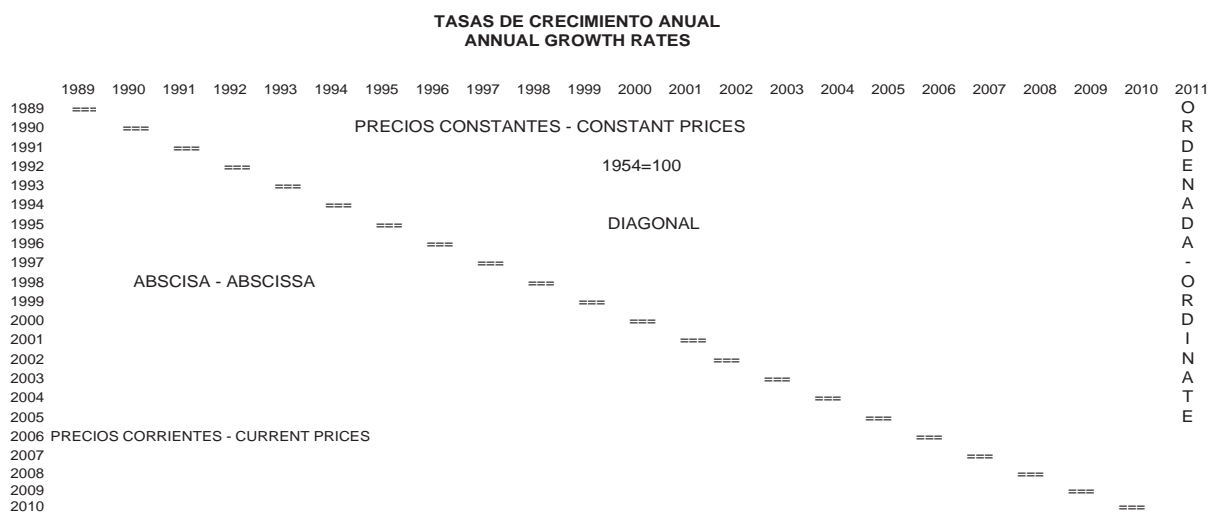

- |  |  |
|--|--|
| 1. Gross Product                                       | 14. Per Capita Gross Domestic Product                              |
| 2. Per Capita Gross Product                            | 15. Personal Income  |
| 3. Personal Consumption Expenditures                   | 16. Personal Per Capita Income                                     |
| 4. Per Capita Personal Consumption Expenditures        | 17. Disposable Personal Income                                     |
| 5. Durable Goods Personal Consumption Expenditures     | 18. Per Capita Disposable Personal Income                          |
| 6. Non-Durable Goods Personal Consumption Expenditures | 19. Net Income   |
| 7. Personal Consumption Expenditures of Services       | 20. Per Capita Net Income  |
| 8. Government Consumption Expenditures                 | 21. Implicit Price Deflators for Gross Product                     |
| 9. Gross Fixed Domestic Investment                     | 22. Implicit Price Deflators for Personal Consumption Expenditures |
| 10. Construction Investment                            | 23. Employment   |
| 11. Private Housing Construction Investment            | 24. Unemployment   |
| 12. Machinery and Equipment Investment                 | 25. Population   |
| 13. Gross Domestic Product                             | 26. Gross Public Debt of Puerto Rico                               |

The tables for these variables are presented at current and constant prices where applicable. Each one of these contains the annual growth rates for specifically two years, for the series presented in this publication. The tables are divided by a diagonal line forming two triangles. The growth rates at current prices are at the lower triangle and the growth rates at constant prices are at the upper triangle. The advantage of this layout is that it permits a direct comparison, between two years, that of the nominal growth rate with the real growth rate of a determined macroeconomic variable.

The table is read the same as in Cartesian coordinates. The years appear at both the abscissas axis (horizontal axis) as well as that of the ordinates (vertical axis). At the intersection point or cell for two given years, the growth rate for such period appears.

If interested in obtaining a variable's growth rate at current prices between two given years, first look at the vertical axis for the most recent year and move forward horizontally to the right, until the other year's intersection is found. The value appearing at the intersection cell is the nominal growth rate during such period. On the other hand, if interested in obtaining the constant growth rate for the same variable, look first the horizontal axis (at the top of the table) of the most recent year and move in a vertical direction, until the intersection with the other year is found. Hence, the actual growth rate during such period is obtained. For example, the gross product's annual growth rate at current prices for the period of 1989 through 1996 was 6.2 percent. On the other hand, the growth rate at constant prices for such variable during the same period was 2.4 percent. While doing the procedure it is convenient to remember that you must start from the most recent year.
